Convert documents to PDF

The Portable Document File (PDF) format is commonly used to share documents. However it may be that your documents are in other formats, such as .doc, .jpeg and so on. Follow the instruction below to convert your file to PDF format:

- Save a Microsoft Office (word, excel, powerpoint) document in PDF format:
 - If you have Microsoft Office version 2007 or later, you can click on File/Save as. A 'save as' screen will pop-up, click on the drop-down box 'save as' and choose 'PDF'.
 - If you have an earlier version of Microsoft Office, continue to the instruction on how to save other files in PDF format:

Save other files in PDF format:

- PDF printer: It is possible that you already have a PDF printer installed on your computer. In that case, if you can 'print' your document to PDF. In this case: print your document and choose the (Adobe) PDF printer instead of your default printer in the print Menu. (Do not use quick print, as the system will then choose the default printer automatically. Instead use the full print function in your software).
- Local desktop software: It is possible that you already have software on your computer that can convert files to PDF format. Please check with your system administrator. If you have administrator rights, you can also install a free PDF creator on your computer. There are several free PDF creators available for download on the internet. An example is PDFCreator (<http://www.pdfforge.org/>). Go to the download page and download the application. On the support page you can find the user manual.
- Online: There are several web sites where you can convert your document to PDF format for free. An example is <http://www.freepdfconvert.com/>. Click on the 'browse' button to choose the file you want to convert to PDF, fill in your email address and click on 'Convert Your File'. The file will be sent to you in PDF format. Please make sure that the website you are using has a privacy policy that protects your confidential information.
